

To Whom It May Concern:

I think that it is ridiculous that XM radio should be censored, that is, not allowed to broadcast local traffic and weather information. I realize that commercial radio could lose commercial sponsors if their listener population goes down, but that is what the free enterprise system is all about!

I hope that you will not allow the commercial lobbyists to stop, what is in effect, the right of XM Radio to practice free speech.

Sincerely,

Stephen R. Lynch
